Hyunday Ioniq 5.

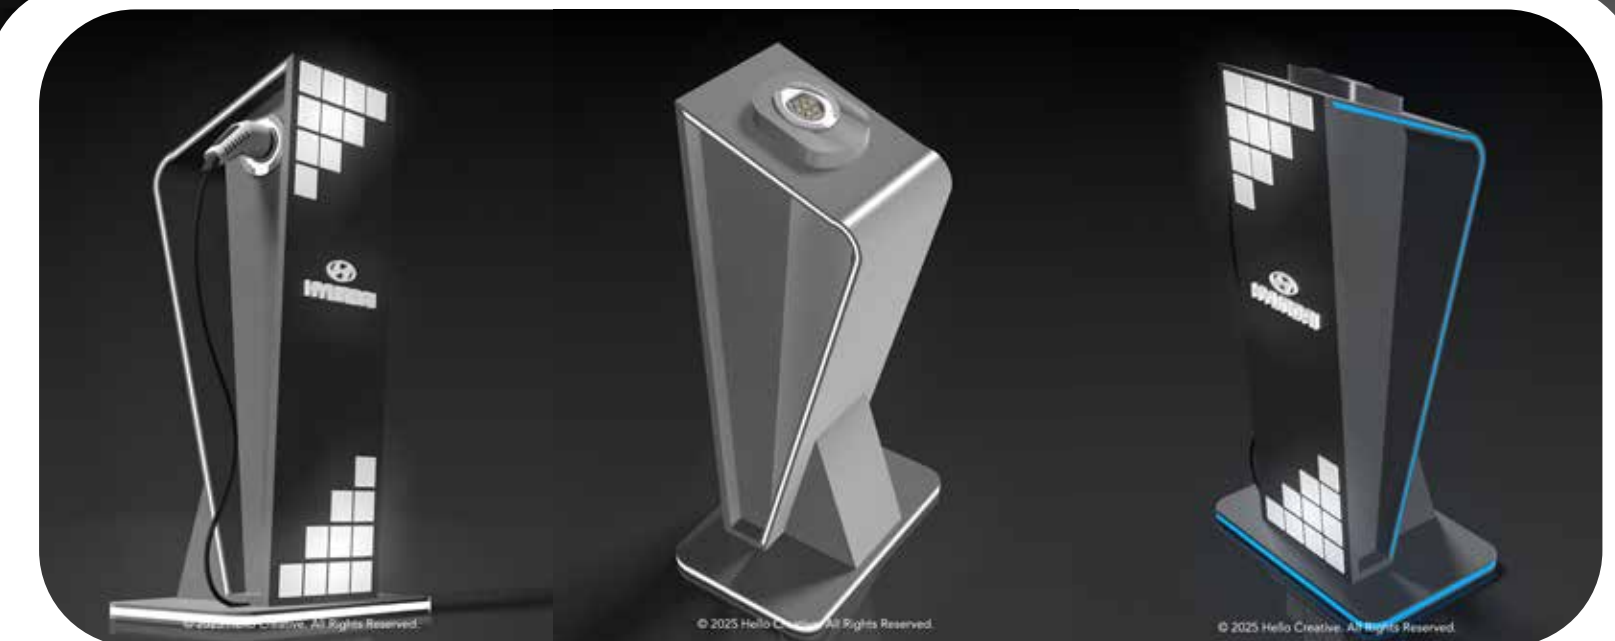

Stage Design

Collaborated with **BCP Event**

The Hyundai Ioniq 5 stage design presents a modern and futuristic concept that highlights electric vehicle technology. The main stage is equipped with a large LED screen displaying product visuals and technology information in an engaging way. A neatly arranged seating area with a round table format creates a comfortable and exclusive atmosphere for invited guests. Additional elements, such as a modern-style podium, further reinforce the premium impression of the entire event.

Main Stage

Podium

Techno Camon 20 5G Premier Launch.

Booth Design

The Techno Camon 20 5G Premier Launch booth was designed with a futuristic and elegant concept, combining blue, white, and striking LED lighting to create a premium impression. The booth structure features modern geometric shapes that emphasize the high-tech identity of the showcased product.

Left View

Google Education AI Connect .

Main Stage

Collaborated with **Gala Events Management**

The main stage of Google Education AI Connect was designed with a futuristic and educational ambiance, combining Google's signature colors and line patterns that represent connectivity and innovation in education. Equipped with an informative backdrop, discussion area, and vibrant decorative elements on both sides, the stage created a modern, welcoming, and inspiring atmosphere to support interactions throughout the education summit in Indonesia.

Right View

Left View

Mandiri WOW Festival .

Main Stage

Collaborated with **Gala Events Management**

The main stage of the Mandiri WOW Festival was designed with a grand and colorful appearance to create a lively and energetic visual experience. A large “WOW” element served as the centerpiece of the stage, enhanced by dynamic lighting effects and a massive LED screen that displayed event information in an engaging way. The stage layout ensured optimal visibility from multiple viewing angles.

Left View

Pertamina Geothermal

Stage Design

The Pertamina Geothermal stage design showcased a dynamic and modern concept that represented renewable energy. The main stage was dominated by layered geometric shapes, combined with eco-themed decorations and bright green accents symbolizing the spirit of green energy. The stage backdrop highlighted the message "Energize Your Life" and reinforced the commitment to supporting a sustainable future. Every area of the stage and supporting booths was designed to be both engaging and photogenic.

Detail 1

Detail 2

Astra Townhall ■

Main Stage

Collaborated with **Blind**

The main stage layout design for Astra Town Hall Bali 2025 features a modern and elegant concept infused with iconic Nusantara architectural elements. Visual details such as domed structures and curved ornaments add a local touch that blends harmoniously with the corporate-themed backdrop. The stage is arranged symmetrically with a comfortable seating area, creating a professional yet welcoming atmosphere for all event participants.

View 1

View 2

Viu.

Booth Design

Collaborated with **Blind**

The Viu booth design showcased a modern and minimalist concept. The booth featured a gallery of Viu's flagship film and series posters, neatly arranged to capture visitors' attention. The space was equipped with an interaction table and comfortable seating, creating a relaxed atmosphere for discussions or simply taking a break. Its open design and easy access allowed visitors to enjoy every part of the booth while delivering an engaging and representative visual experience of the Viu brand.

View 1

View 2

Astro .

Booth Design

Collaborated with **Gala Event Management**

The Astro booth at Astra Town Hall Bali 2025 featured an engaging and interactive mini-store concept, highlighting Astro's brand identity as a quick shopping service within minutes. Designed to resemble a modern store, the booth incorporated visual elements filled with illustrations of everyday products, creating a dynamic and attractive impression. This area served as an engaging spot for visitors while reinforcing Astro's message of fast and convenient shopping.

View 1

View 2

Baliwein ■

Booth Design

Collaborated with **Ninenineone**

The Baliwein booth design presented a warm atmosphere with dominant wooden materials, creating a natural yet elegant impression. Visual elements such as a mini bar, wine bottle displays, and comfortable seating areas were designed to provide an interactive experience for visitors. A unique photobooth featuring traditional character costumes added visual appeal, while the booth layout was strategically arranged to facilitate interaction.

View 1

View 2

Filma Inspirasi Indonesia.

Booth Design

The Filma Inspirasi Indonesia booth design showcased a bright and welcoming atmosphere with dominant yellow and white tones, reflecting the Filma brand identity. The booth featured attractive product displays, an interaction table for visitors, and a spin wheel game that enhanced appeal and boosted engagement. Its open and accessible structure allowed entry from multiple sides, creating a dynamic, modern environment that encouraged active visitor participation.

Samsung Experience.

Booth Design

Collaborated with **Brilian Indonesia**

Booth Samsung Experience menghadirkan konsep rumah pintar modern dengan nuansa biru-putih yang elegan. Terdiri dari area Smarthings dan Experience Area, booth ini menampilkan integrasi produk Samsung dalam kehidupan sehari-hari secara interaktif dan immersive.

Samsung Smarthings

Samsung Experience Area

Grab Jajarans Festival

Booth Design

The Grab booth at Jajarans Festival featured a modern design with Grab's signature green, combined with warm wooden accents and attractive lighting. Equipped with a service desk, a Ramadan product promotion area, and eye-catching visual elements on both sides, the booth was designed to capture visitors' attention while delivering an enjoyable and interactive experience.

Right View

Left View

Daikin

Stage Design

The Daikin Inverteria stage design carried a futuristic and modern concept, representing innovative energy-efficient air conditioning technology. The main stage was dominated by layered circular geometric structures with a dynamic form, combined with blue and white lighting to create a sophisticated and refreshing ambiance. Every part of the stage and supporting booths was designed to be engaging and photogenic, making it ideal for interactive activities and event documentation.

IIA Indonesia National Conference

Main Stage

This main stage was designed in a modern, futuristic, and elegant style to support the IIA Indonesia National Conference on August 27–28, 2025, in Medan. The backdrop features dynamic 3D graphic elements in green, blue, and orange, reflecting the visual identity of the conference.

Right View

Left View

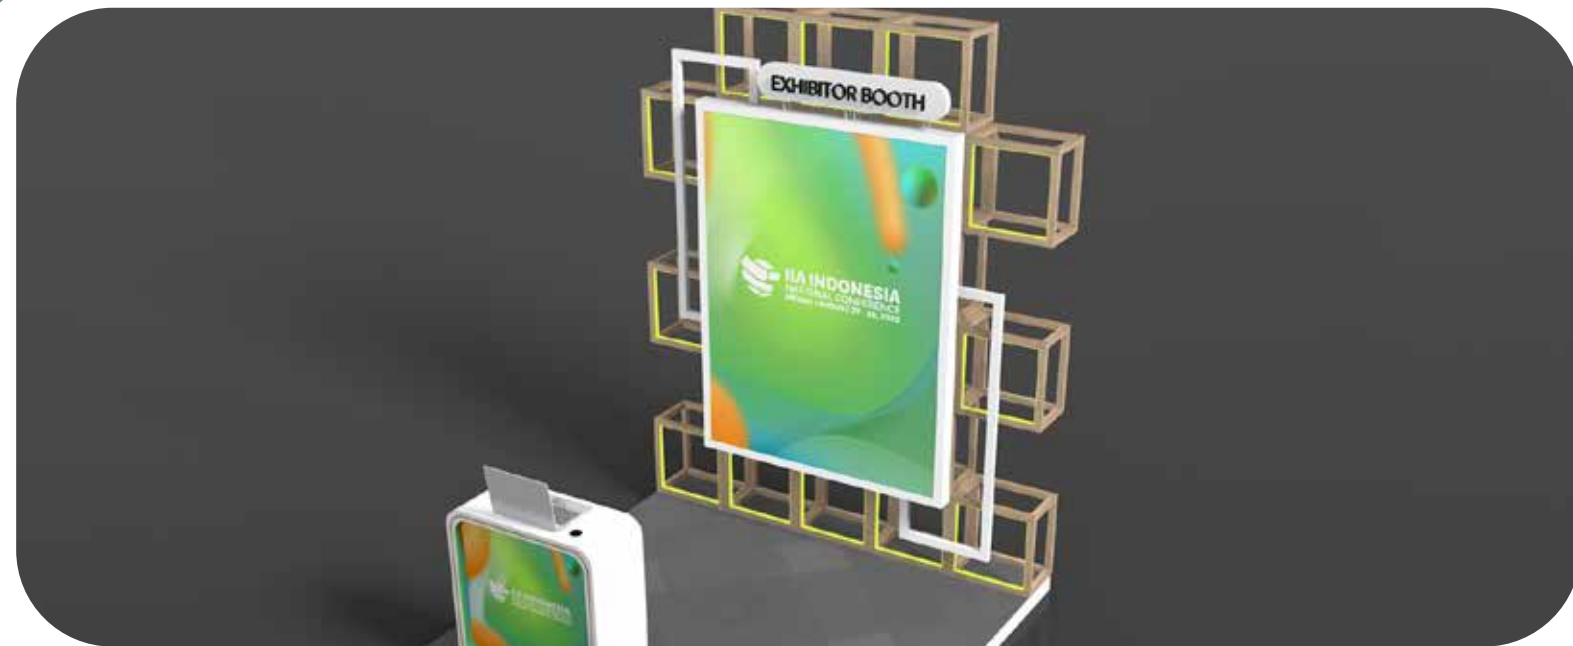

IIA Indonesia National Conference

Booth Design

The booth design for the IIA Indonesia National Conference adopted a modern and modular concept with flexible box-shaped structures, showcasing a combination of green, orange, and blue in line with the event's branding. The booth featured a large central display panel, a seating area for interaction, as well as Platinum and Exhibitor Booth variants designed to provide maximum visibility and convenient branding opportunities for exhibitors.

Platinum Booth

Exhibitor Booth

BRI mo Festival Activation 2025

Booth Design

Collaborated with **Gala Events Management**

The BRI mo Festival Activation 2025 booth featured a futuristic and playful design, dominated by BRI mo's signature bright blue and complemented by a friendly mascot character. Equipped with digital screens, an interaction area, and attractive photo spots, the booth was designed to reinforce the "Easy & Versatile" branding while creating a fun and engaging experience for festival visitors.

Right View

Left View

50th Anniversary Tokio Marine

Stage Design

The 50th Anniversary stage design of Tokio Marine embraced the theme “Enchanted Night” with an elegant and glamorous ambiance. Dominated by black and gold tones combined with sakura floral ornaments, it created a luxurious and magical impression. The stage structure was designed symmetrically, enhanced with dramatic lighting and premium visual touches to elevate the grandeur and sophistication of the celebration.

Right View

Left View

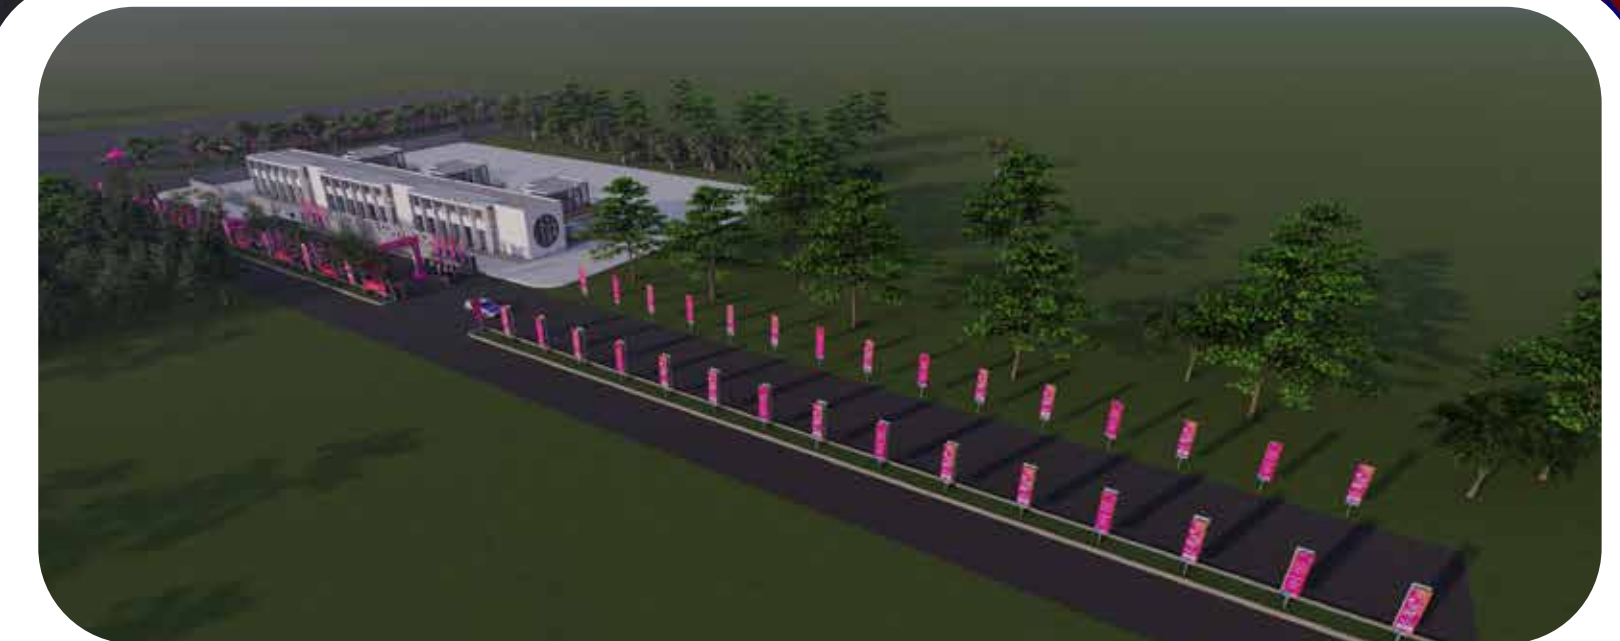

Jelajah Tri Nusa Tenggara

Layout Design

The layout design of Jelajah Tri Nusa Tenggara featured a festive starting area with bright pink visual elements, an iconic gate, and rows of flags lining the route. The area was neatly and strategically arranged, creating a lively atmosphere that welcomed participants with the spirit of exploring the Nusa Tenggara region.

View 1

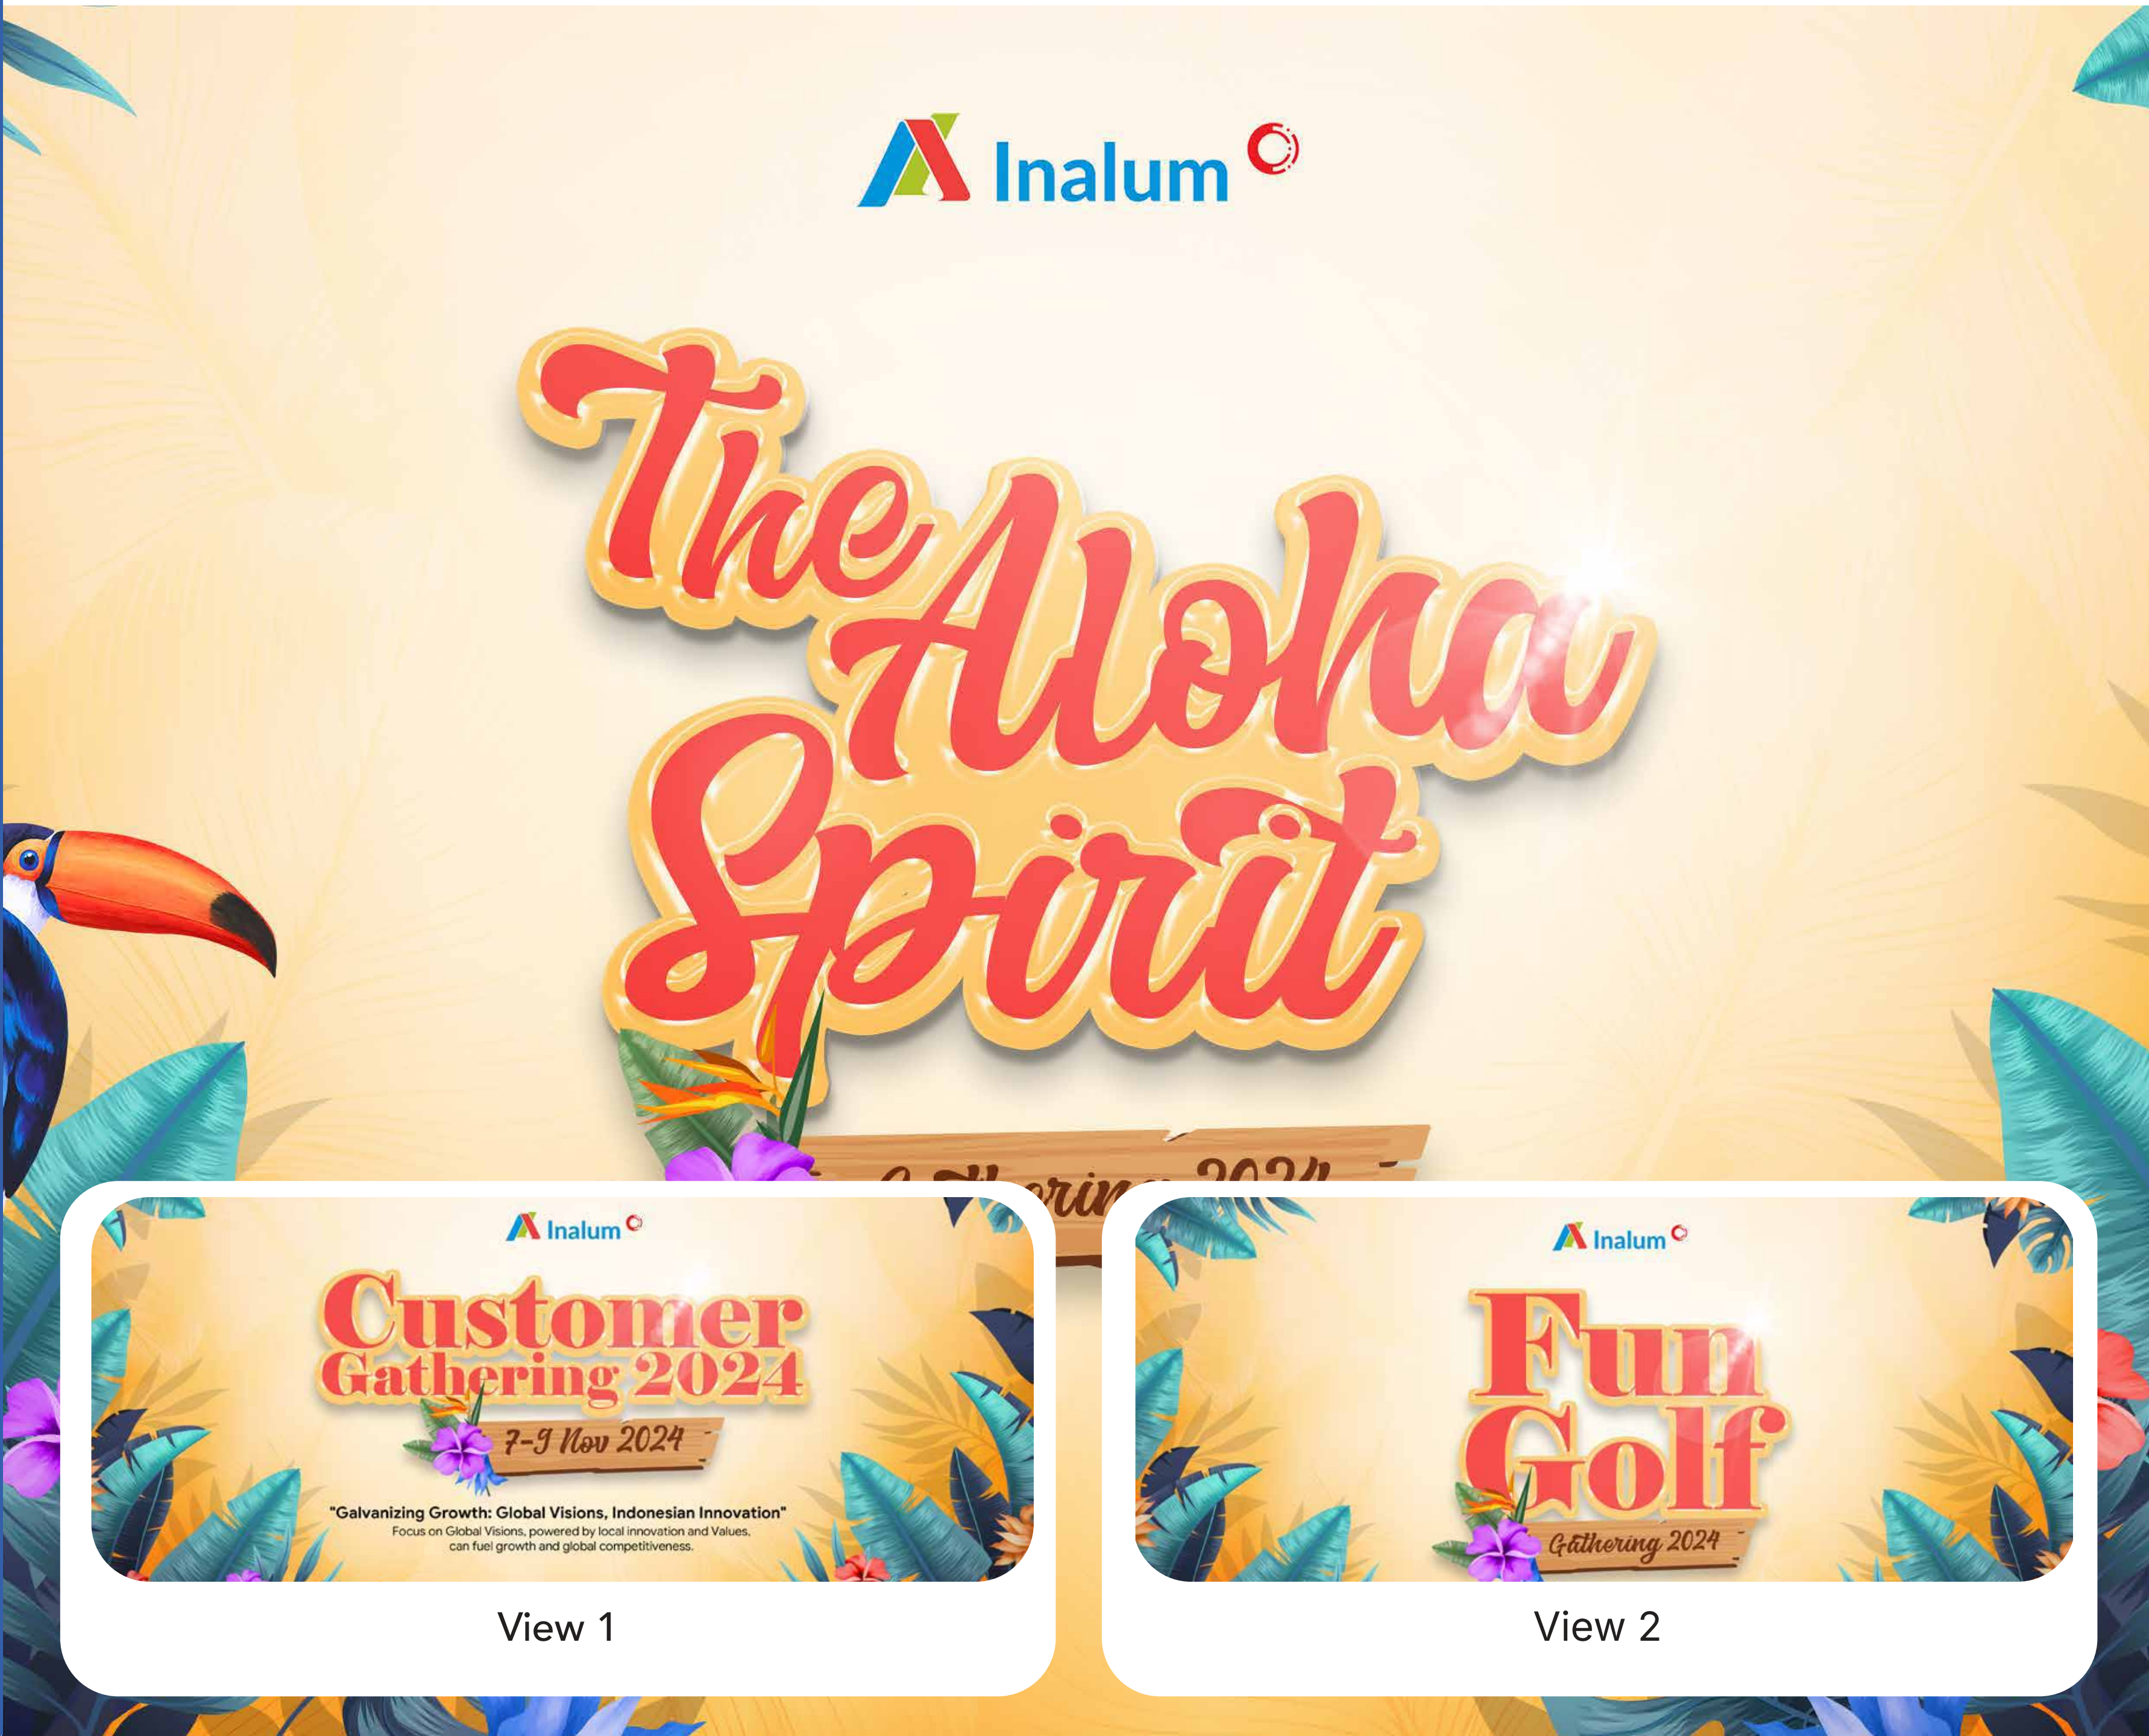

View 2

Inalim Gathering 2024.

Key Visual

Collaborated with **Ninenineone**

Inalum Gathering 2024 embraced a warm, cheerful, and exotic tropical ambiance. Visual elements such as tropical birds, lush leaves, and brightly colored flowers reinforced the Aloha concept, full of togetherness and joy. The main stage and event area were designed with consistent visuals, highlighting fresh and inviting tropical elements. A relaxed yet exclusive atmosphere was created through modern décor and layout design.

View 1

View 2

Electrochestra Tiga Masa ■

Motion Graphic

This motion graphic video showcases a striking blend of retro-modern visuals, dominated by bold red and sun-yellow tones as the backdrop, creating a dynamic and energetic atmosphere. The design style embraces the “three eras” concept with bold visuals, rough textures, and tropical touches such as large leaves that bring a lively and captivating impression.

Electrochestra Tiga Masa

Motion Graphic

This visual presents a futuristic and modern vibe with dominant electric blue tones and striking neon lighting. Featuring the word "ELECTROCHESTRA" in glowing yellow LED-style typography as the backdrop, the design creates a grand and energetic EDM stage atmosphere.

Electrochestra Tiga Masa ■

Motion Graphic

Collaborated with **Blind**

Carrying a modern vibe with gradients of purple, blue, and neon pink, this visual represents a blend of elegance and musical power. The futuristic backdrop, combined with neon typography reading “ELECTROCHESTRA,” evokes the grand atmosphere of a digital concert.

Toyota Leader Of Change ■

Motion Graphic & 3D Design

Collaborated with **Blind**

This project integrates immersive motion graphics with a futuristic 3D stage design themed “Leaders of Change.” Adopting a high-tech visual approach, the Toyota stage featured blue light beams, modern structures, and a large LED screen showcasing motion graphics themed around transformation and automotive innovation.

3D Stage Preview

Inalum Alumunium Talks ■

Key Visual

The key visual for Inalum Aluminum Talks 2024 is designed with a futuristic and elegant concept, combining shades of blue and black to convey a high-tech and professional impression. The design incorporates modern geometric elements that create a dynamic look, with futuristic touches reflecting the identity of the aluminum industry. This strong visual composition aims to reinforce the premium and innovative image of the event, which will take place in Bali on November 7–9, 2024.
